Remote Deposit Capture is like having a bank teller in your office 24 hours a day!

Deposit funds from multiple locations into your bank account.

Check deposits can easily be made from any remote office or storefront, which streamlines your cash flow.

Make deposits anytime.

Enjoy the convenience of making deposits electronically 24 hours a day, 7 days a week.

Save time preparing deposits.

Preparing deposits electronically is very efficient, reducing labor costs and freeing up staff for other tasks.

Cut costs on trips to the bank.

Electronic deposits can reduce trips to the bank.

Reduce risk of check fraud.

Faster check clearing allows you to act sooner on returned checks, significantly increasing your opportunities for collection.

Enjoy more security.

Multiple layers of security including password protection, Internet firewalls, and 128-bit encryption, the highest level of security available.

It's easy! All you need is:

- An account with Gwinnett Community Bank
- High Speed Internet connection
- Desktop check scanner and software (provided by the bank)
- PC with current version of Microsoft XP or 2000 and a USB 2.0 port

Introducing Remote Deposit Capture Deposit checks electronically from your desktop.

Remote Deposit Capture utilizes a desktop scanner that connects to your computer and the Internet. With it, you can scan checks received from customers and issue deposits electronically to the bank, anytime, day or night. It's the quickest way to make your business deposits!

How does Remote Deposit Capture work?

1

Scan checks from any desktop.

Scan both sides of the check in one pass.

2

Prepare the deposit.

View images of the scanned checks on your PC. The dollar amounts are automatically read and the deposit is totalled.

3

Electronically send deposit to the bank.

Click SUBMIT DEPOSIT. The deposit is sent to the bank through a secure Internet connection.

4

Funds are deposited into your account.

View and manage your account online via Internet Banking.
